HONOLULU, H. I., TUESDAY, JANUARY 16, 1906.

No. 2456.

## POSSIBLE INFANTICIDE

The body of a Chinese or Japanese infant about three weeks old was found floating in a pond at Waikiki near Hobron's place. The body bears no marks of violence. When the matter was reported to the police, Lieut. Bollmann was sent out to take charge of it and investigate. Another officer in addition has been detailed on the case today. It is the theory of the police, either that it is a case of infanticide, or that possibly it was a child who died among the Japanese on board the Kinau when she returned last Saturday, and the Japanese fearing quarantine if the death was discovered threw the body overboard and it washed to where it was found. The body was in an old ship's bag.

## NEW ADVERTISEMENTS

### REQUESTS TO THE PUBLIC

BY THE

### CITIZENS SANITARY COMMITTEE

The Citizens' Sanitary Committee make the following requests to the public:

1. In order that the census to be taken for sanitary purposes may be as full and accurate as possible, the citizens of Honolulu are requested to remain at home, so far as practicable, on Wednesday, January 17, until they have been registered by the Sanitary Inspector of their district.
2. In order to help the inspectors and make inspection as perfect as possible, citizens are requested to report to the sub-inspector of their district each day before leaving the district; or if this is impossible, leave word where they have gone to.
3. More sub-inspectors are required. All persons willing to volunteer as sub-inspectors are requested to immediately send their names and addresses to the Central Committee.

CITIZENS' SANITARY COMMITTEE.  
Honolulu, January 16, 1906.

## BY AUTHORITY

### SCHOOL NOTICE.

All Government Schools in this district are hereby ordered closed until further notice.  
By order of the Minister of Public Instruction.

C. T. RODGERS,  
Secretary.  
Honolulu, Jan. 15, 1906.

### ELECTION OF OFFICERS.

At the annual meeting of stockholders of the Kona-Kau Telephone & Telegraph Company, Limited, held at the office of the company, Honolulu, this day, the following officers were elected for the ensuing year:  
G. C. Hewitt, President  
George Clark, Vice-President  
L. S. Aungst, Sec. & Treas.  
W. H. Greenwell, Auditor  
Directors—C. M. Walton, John Gaspar and J. A. Maguire.  
L. S. AUNGST,  
Secretary.  
January 2, 1906.

## WOOD CHASES A RUMOR FOR QUARANTINE WHARF

FINDS THAT THERE WAS NOTHING IN IT.

He Visits Oahu and Honolulu Plantations Suddenly and is Satisfied That All is Well.

Rumor evaded Lieut. Norton's Hawaiian quarantine guard and knocking at Dr. Wood's door, gave the President of the Board of Health to understand and be informed that plague had broken out at Oahu plantation, and that a native at Alea had suddenly died and been buried, like Moses, no one knew where.  
Dr. Wood secured a special train on the Oahu Railway and left this morning at 6 o'clock unannounced, for those two plantations. His arrival was a surprise. Dr. Blake at Oahu told him there had been one of the plantation laborers sick, but there was nothing in his symptoms to arouse suspicion and consequently he had not reported it, feeling it unnecessary to burden the Board of Health with cases that were not suspicious. Nevertheless, out of extreme caution, he had entirely isolated the patient so that there could be no possibility of infection in any event. Dr. Wood thoroughly investigated the whole matter and satisfied himself that there was no cause for suspicion. He commended Dr. Blake for his care in isolating the case even when there were no suspicious symptoms.

At Alea, Dr. Wood saw Manager Low. He found here that there had been no mysterious death or secret burial at all. All the natives living in the region were looked up and accounted for. But in order to make it absolutely certain that the rumor was baseless, Mr. Low detailed two Hawaiians to thoroughly investigate the matter.

Dr. Wood had conferences both with Manager Low and Manager Ahrens. There are thoroughly alive to the situation and in perfect harmony with the Board of Health. They permit none of the people of their plantations to come to Honolulu nor do they permit strangers to come to the plantations nor strange Japanese or Chinese laborers to consort with their own. To this end they have issued strict orders and maintain an active guard at their own expense to prevent strangers or strange laborers from coming, or their own people from wandering away.

Both managers are as anxious as anyone can be to prevent the plague from getting among their employees. They told Dr. Wood that there should be no concealment on their part. If any suspicious cases arose they would report immediately to the Board of Health.

Dr. Wood expects as soon as opportunity offers to make a tour of the other plantations along the Oahu railway and expects to find the same appreciative helpfulness among the managers of these.

### MR. BROWN TALKS.

A Man Much in China Has a Few Words About the Plague.

J. W. Brown, who returned by the Doric from China, has not a symptom of "cold feet" on account of the plague in Honolulu. In fact he is one man who feels absolutely no personal concern in regard to the disease.

"I have been in cities of China where Chinamen were dropping down on the main streets with plague," says Mr. Brown. "In Canton I have walked around dead bodies on the sidewalk to get to my destination. In that city especially I have known the disease numerous times to be epidemic. People would die off by the dozens and scores. And, really, through it all, I did not notice one hundredth part of the alarm that is daily manifest on the streets of Honolulu. White people in China do not fear the plague. They know by years of experience that they will not contract it unless they come directly in contact with it under circumstances immensely favorable to the disease."

"Everybody truly says that plague is distinctly a fifth disease, and yet they will not live up to their own maxim. They keep clean, surely, but after that they fret themselves into a fever of fear. The thing to do is to observe ordinary sanitary rules, keep away from infected houses and attend to the ordinary routine of life in the ordinary way."

Going out of the business of importing harness and vehicles. Rare chance for bargains. W. W. Wright.

### IN BEAUTIFUL DESIGNS.

Dress goods in beautiful designs can be found at L. B. KERR'S, Queen street, and at prices that are remarkably low.

### MESSENGER SERVICE.

The Honolulu Messenger Service delivers messages and packages. Telephone 378.

## ONE ON SUMNERS' REEF IS PLANNED.

To Accommodate Clean Freight for Other Islands—80 by 150—Chamber of Commerce's Measure.

An important meeting of the Chamber of Commerce was held at 10 o'clock this morning to consider the matter of erecting a quarantine wharf on Sumner's reef on the makai side of Honolulu harbor. The precise location is on the tide land at the west side of the light house at the base of naval row.

After a great deal of discussion and explanation it was decided to refer the matter to a committee to report on the questions of title and finances.  
The matter was presented by John Ena and W. M. Giffard, representing the committee which had laid it in charge. Their statement of the necessity of the moment was this:  
People of the other islands are in need of food supplies. There is already danger of suffering on the island of Kauai, and it is reported on excellent authority that Hilo, Hawaii, has no supplies for two weeks more. It is proposed to erect a wharf and warehouse 80 by 150 on the tide land beyond the harbor for the transshipment of freight for the island from foreign vessels to local steamers. Vessels arriving from San Francisco or New York will go alongside this wharf and discharge all freight for the other islands and then approach the other wharves. Island steamers will lie in the stream and take food stuffs and other necessary supplies from the quarantine wharf.

Mr. Cotton, the wharf contractor for the United States government, arrived and presented plans for the proposed new structure. He stated that it could be completed and in service in three weeks.

The lease of the land belongs to the Company. It was stated in the meeting that arrangements with them could most likely be made. It was suggested that the money for the purpose be raised by subscription among business men and that they be reimbursed later through wharf charges in the usual way.

The application of the Citizens' Committee for use of the Chamber for its business was denied. It appeared that the committee wanted the room for all hours, day and night. Dr. Carmichael is now using it in the forenoon for the examination of passengers for the coast and several organizations have rendered rights in it. The Chamber will suggest the use of the rooms in the old Masonic building at the corner of Fort and Queen by the committee.

Those present at the meeting were: President T. B. Walker, Secretary J. G. Spencer, J. B. Atherton, F. A. Schaefer, F. J. Lowrey, W. F. Allen, C. M. Cooke, J. P. Cooke, W. W. Hall, M. Phillips, F. M. Swamy, W. M. Giffard, R. F. Lange, John Ena, T. Olive Davies, T. J. King, John Egan, Cecil Brown, J. T. Campbell, Wm. Lishman, Ed. Suhr, L. E. Pinkham and Contractor Cotton.

## SUGAR PILING UP.

Large Quantity Ready for Shipment From Kauai.

The steamer James Makoe which returned from Kauai this morning reports a large quantity of sugar awaiting shipment. There were 25,553 bags altogether when the Makoe left, as follows: K. S. 1500; M. S. 2000; H. M. 10,000; F. 11,000; K. P. 6000; Mak. 14,800; W. 6000. The Inter Island vessels will probably go to Kauai empty to get loads of sugar, unless there is a change in the orders regarding shipments from the Aloha of the fleet is here discharging in the harbor, or will be in a day or two, and there have been no departures so far this week.

## PASS THE TIME PLEASANTLY.

Steamer men in quarantine pass the time pleasantly by playing gramophone music purchased from The Gramophone Co. New improved gramophones on any terms.

## ALWAYS ON HAND.

Beautiful trimmed hats, choice ribbons and flowers. The latest patterns as shown in the Delicatore at Mrs. Hanna's Port Street.

## EXQUISITE RUGS.

If you want to decorate your home buy one of these 14-1 rugs that are being sold at L. B. KERR'S for \$17. They are good value, exquisite patterns, charming colors, and must be seen to be appreciated. Do not fail to see them before they are all sold.

Fine Job Printing, Star Office.

## DR. CARMICHAEL HONORED

CHIEF QUARANTINE OFFICER IN THE PHILIPPINES.

Announcement Comes to Him by Telegram From Surgeon General Wyman. Will Leave Soon for Manila.

Dr. D. A. Carmichael has been made Chief Quarantine Officer for the Philippine Islands.  
The Gaelic brought him a telegram from Surgeon General Wyman notifying him that an order making this appointment and promotion had been issued and for him to hold himself in readiness to leave for his new field by the first steamer after receiving the official order. The telegram is dated January 4, so that it is possible the order may arrive by the Australia though it is more likely to come by a later steamer possibly the Hong Kong Maru.

The date of the telegram is within a day or two of the arrival of the news in Washington of the breaking out of an epidemic, similar to the plague, in the Philippines, and the conference between Secretary of War Root and Surgeon General Wyman who is at the head of the Marine Hospital Service. It seems probable therefore that this appointment came as a result of this conference and in that event is a compliment to Dr. Carmichael from the War Department as well as from the Marine Hospital Service with which he has been so long connected.

As Chief Quarantine Officer of the Philippines, Dr. Carmichael will have extensive jurisdiction and wide powers. Not alone Manila but every port in the archipelago will be within his jurisdiction.  
Dr. Carmichael has been in the United States Marine Hospital Service for many years and has been assigned to many important positions and duties in that service, positions and duties requiring not only high scientific and professional attainments but administrative and executive qualities. In these positions and duties he has made many valuable reports, and done much to advance what is known as state or sanitary medicine to the present high position it occupies.

He came here soon after annexation as the representative of the Marine Hospital Service and the officer of that service in the Islands. Since coming here he has made many friends both in the profession and out of it, all of whom not only congratulate him on his advancement but feel that it is well deserved.

He married some months ago Mrs. Hastings, widow of the late Frank Hastings, Secretary of the Hawaiian Legation in Washington. His wife will accompany him to his new post going as far as Yokohama with him and remaining there until he can make suitable arrangements in Manila.

"The appointment is an advancement at which I feel gratified, of course," said Dr. Carmichael, speaking of it. "It carries with it great responsibilities and hard work. But I shall have assistance commensurate with these."

The notification of the appointment coming by telegram, no announcement was made of who his successor here will be.

## TRAMWAYS MATTER.

Marshal Brown has informed Manager Pain of the Hawaiian Tramways Company, that the holes left in the street opposite the California Fruit Market must be filled and the roadway put in usual good condition at once. Yesterday Mr. Neumann stated that he would connect the new track with the old at the point opposite the hotel.

The reply was, simply, "there will be trouble if you try it."

## ANOTHER FINE HOUSE.

Fred. J. Cross, manager of the Inter-Island Telegraph Company, will build a fine home on one of his lots in Makiki. Plans have already been prepared. The building will be two and a half stories high, of modern and excellent style.

A feature will be a great Southern veranda extending the entire length of the front. The house will be one of the finest in Makiki.

## MEDICAL ASSOCIATION.

At the adjourned meeting of the Medical Association some slight modifications in the sanitary rules recently adopted by the Board of Health were suggested. It was recommended that, in addition to the Board, a consulting committee of physicians, to assist in handling important sanitary questions that may arise.

It was decided to hold meetings once each week as long as the plague keeps up.

## CLOSE OF THE ORPHEUM.

Colonel Thompson's Boston Lyrics and the other players at the Orpheum had their contracts cancelled last night. The contracts of the orchestra the contracts are merely suspended. Mr. Cohen expects new talent from the east in time to reopen the house after the plague scare is over.

## STAY AT HOME.

As tomorrow is a holiday the Citizens' Sanitary Committee request that business be suspended, and that people remain at home as far as possible in order to facilitate the taking of the sanitary census.

## HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing machine has few equals and no superior—H. Bergerson, agent, Bethel street.

## HERE AT LAST.

"The Hawaiian Economic Calendar" published only by The Golden Rule Bazaar, 315 Fort Street, was received by the S. S. "Mariposa" and is the hand-somest piece of work in this line ever offered the public. Secure one and send it to the folks at home—they will greatly appreciate it, and it only costs 50 cents.

Fine Book and Commercial Printing at the Star Office.

## MRS. BOARDMAN BETTER

REPORTED TO BE BETTER THAN YESTERDAY.

One Plague Death at the Pest House. Block 9, in Chinatown, Being Burned This Afternoon.

The plague situation up to early this afternoon was quite satisfactory, no suspicious cases having been reported. Mrs. Boardman, Sunday's suspect patient, has steadily improved. She is now considered out of immediate danger and there is hardly a probability of a relapse.

The Chinese woman, Wong Shee, aged 63, taken from a hotel on King street near Kakaulele, died last night at the pest hospital. The body was cremated at Maunaloa. During today the Japanese woman from the Arlington has been no worse.

E. W. Jordan wishes it stated that Mrs. Boardman positively did not touch the rat found dead in the store on Fort street.

## TODAY'S FIRE.

Another big sanitary fire is taking place today. Block 9, just below Kamaekapili church is being burned. This block is bounded by Beretania, Smith, Pauali and Maunakea streets. Most of the houses are two stories, although all are in a rat-nest condition. On the Pauali street side is a continuation of shacks.

The department began on the river side of the block and burned against the wind. Work was slow, but very satisfactory. The blaze was at all times under complete control of the department. As in the case of Block 10 houses were jammed one against the other all through, being separated at intervals by small alley ways just wide enough for one person.

Quite a few people were interested in the property destroyed. Very little, belonged to the Bishop Estate, contrary to a popular impression. Following is a complete list of the owners: Bishop Estate, C. J. Fishel, Wong Lai, R. M. Aka, M. C. Holt, A. Lopez, Kakaulele Department of Education, Chinese Benevolent Society, A. Kakuhi, J. See, J. Holt, Sr. Sing Chee Tong Society, L. L. McCandless, A. Swan, Malli Kapu, J. Rills, Piliwi and Kahala.

## NONE NEED FEAR MONEY

PLANTS FOR DISINFECTING IT IN OPERATION.

Bishop & Company and the Treasury Department Will Purify All Money Coming Over Their Counters.

No one need refuse to accept money for fear it will carry the infection of plague with it. Bishop & Company's bank and the treasury department are putting in fumigating plants that will effectively purify any money that comes over the counters of these two institutions, almost making bad money good.

At the bank a perfectly air tight stone vault is being utilized as the lethal chamber for all microbes whose attachment to money leads them to death. At the bottom will be placed a charcoal brazier in which the fumigating agent, sulphur, will be burned. Above this will be perforated metal trays in which the money and the representations of money to be fumigated, will be placed loosely so that the fumes will thoroughly permeate it, leaving no possibility of any infection remaining.

The plant will be completed some time today. As soon as it is completed, each deposit as it comes in will be placed in a thin cheese-cloth bag, gold, silver, paper money, checks, drafts, deposit slip, pass book and everything, the bag tied up and marked with the customers name, and placed in one of these trays. At the close of banking hours, the sulphur will be set burning and the fumes will have all night in which to do their work. The next morning the bags will be opened, the money counted and the proper credits given. Tonight the money in the bank will be fumigated, so that after today, nothing will pass over the counter of Bishop & Company's bank which has not been thoroughly fumigated.

At the treasury department the same method will be adopted. A ceiling and air tight redwood box of suitable size has been made to be used as a fumigating chamber and the same process of fumigation will be gone through with Sulphur as the fumigating agent was adopted after consultation with the Board of Health.

It has been the practice of all the banks, since the plague appeared, to thoroughly disinfect and fumigate all money sent to the other islands. Now the plan of fumigating all money has been adopted.

## INQUEST TODAY.

An inquest is being held this afternoon on the body of George Jackson who died at the Queen's Hospital last night. He was a drayman employed by Hustace & Co. Sunday morning while engaged in board of health work he fell from his tray and was run over.

Hanan creates the style and leave others to follow.  
MINER'S SHOE STORE.

DR. POSEY.  
Specialist for Eye, Ear, Throat and Nose diseases and Catarrh, Maunaloa Temple.

## FOR CAMARINOS REFRIGERATOR.

Australia—Peaches, Grapes, Oranges, Lemons, Limes, Celery, Cauliflower, Cabbage, Pears, Plums, Fresh Salmon, Flounders, Halibut, Crabs, Eastern and California Oysters (in Tin and Shell), All Game in Season, Turkeys, Chickens, New crop of Nuts and Dried Fruits, Olives, Burbank Potatoes, Swiss, Parmesan, Roquefort, New Zealand and California Cream Cheese, Olives. All kinds of Dried Fruits.

## MINISTER COOPER GREETED

WITH SHOT GUNS.

The People Refuse to Allow Sheriff Andrews to Land After He Visits the Kinau.

The town of Hilo has come out in open rebellion against the government and threatens to resist by force any attempt to carry out rules made by the authorities here. Reports from the Hawaii town indicate a condition bordering on panic among the people, who seem ready to offer mob violence to representatives of the government. The sending of troops to enforce the laws is now being discussed, as a result of the reception given to Minister Cooper, representing the Cabinet and the Board of Health.

Minister Cooper was not allowed to land when he arrived at Hilo. The Hawaii metropolis is worked into a frenzy of excitement by the plague news and those on shore even tried to keep Sheriff Andrews from returning, after he had made a visit to Mr. Cooper on the Kinau. Not only the organized movement to keep off communication with Honolulu manifested itself, but a mob armed with guns and stones made an ugly demonstration at the landing.

When the Kinau arrived in Hilo harbor, Minister Cooper at once started ashore in a small boat. He was met by Sheriff Andrews, who stated that no landing would be allowed. After a good deal of discussion the sheriff agreed to visit the Kinau for a consultation with the minister, who had the order to discharge Andrews in his pocket. What the result of the conference was was not reported to the Mauna Loa, which brought the news of this trouble today.

When the sheriff had had his conference with the minister he started to return to the shore, and was given a shot gun reception. There were crowds of people on the landing and many of them threatened to stone him if he came close to the landing. Remonstrance was of no avail with the excited Hiloites and Andrews had to put back to the Kinau. Hilo had determined that no one from Honolulu should set foot in the town and at last accounts the people remained ready to use force even against the government.

Minister Cooper's show of authority was of not the slightest avail and the people at Hilo did not mind being told they were in rebellion against the government. "We don't care if it was the President of the United States," they shouted. "He could not land here."

Sheriff Andrews finally succeeded in getting ashore. He secured the aid of the U. S. Survey ship Pathfinder, which vessel was in the harbor. In one of her boats he was finally landed and then began another stormy meeting in Hilo.

The Mauna Loa waited at Kailua to hear the decision of Hilo, but no news was given. It was announced that nothing definite would be done till Tuesday morning. In Hilo harbor were the Kinau, Maui, Helene, Kilauea Hou and Kailua, all at anchor and unable to have any communication with the shore.

## FINED \$75.

Oscar Lewis and Fred. Turk were fined \$75 each by Judge Wilcox on charges of aiding waiting sailors to desert. They have noted an appeal.

## HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

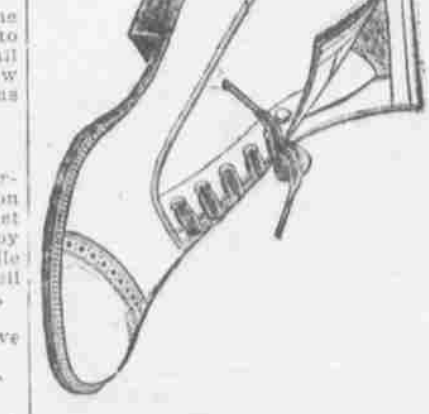

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of a gripe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by all dealers and druggists, Benson, Smith & Co., general agents, Hawaiian Islands.
